Submitted by: Anjitha Sasi

## **THE JOURNEY**

The Department of B.voc Food Processing Technology organized an Industrial visit for the first year students from 16<sup>th</sup> feb to 18<sup>th</sup> feb to **Maxvita Food Pvt Ltd** in Mysore,Karnataka.

There were 31 students who were accompanied by 2 Professors, Prof. Nikhil A N and Prof.Reeja John.

The trip Hit the road on 16<sup>th</sup> February 2024. All of the students get informed to gather around Infront of the college gate to get on the bus which is organized by Everstar Travel Agency.We reached the destination at morning on 17<sup>th</sup> February 2024. After the arrival all of the students procceed to a quick shower and had a breakfast at the restaurant .

## **Vist Summary**

We reached the company in the morning. At the time of our arrival the staffs were gathered Infront of the entrance for welcoming us to the company. After the welcoming section all of the students were keep abreast to wash hands by the soap , which is provided by the staffs of the company. And they also give us hand nets for entering the factory. The factory was very huge and all of us get thrilled to know about how things actually working there.

The trip included a factory tour, interactive sessions, live demonstrations ,and a dedicated question and answer session. By the factory tour all of us witnessed for a great potato chips making factory. The interactive sessions and live demonstrations were very efficient. We learned about potato chip manufacturing. The guide staff of the company was very friendly. They explained each and every step in the manufacturing of a potato chip.

The manufacturing is done by various steps. “collection of the raw materials” is the first step, here they collect lady Rosetta a variety of potatoes after that “washing” is done, by washing the dirt, debris and other contaminated content were removed from the potatoes. Then “peeling” is takes place and after peeling of the potatoes the “slicing” comes here the potatoes where

Uniformly sliced by the help of machines. Then it goes to “frying” and “oil draining and cooling”. After these process the “flavouring” comes, and then “the removal of damaged chips” takes places., after all these steps the final steps comes which is “packing” in this step the potatoes were packed in different quantities on the basics of consumer needs.

The Industrial Vist helped us to get a good knowledge about a variety food products.

After a small photo session we started our journey to “Brindavan Gardens”. On the way to the gardens we had our lunch from “Mysore dine restaurant”, we reached the gardens at evening. Brindavan Gardens, located in Mysore, Karnataka, India, is a picturesque garden famous for its symmetrical design, vibrant flower beds, and musical fountain show. Built across the Cauvery River, it spreads over 60 acres and is a popular tourist destination. One of the highlights of Brindavan Gardens is its musical fountain show, held in the evenings. Colorful lights synchronized with music create a mesmerizing spectacle. We enjoyed the moments in

the garden very well. It was the most memorable moment of the whole trip.

After the visit of “Brindavan Gardens” we back on the bus and attend a “DJ” party the party was pretty good we enjoyed the performance of the “DJ”. And after that we reached our resort, the resort provide us a campfire where we hanged out for a long, after the campfire everyone leaves to their own rooms. The day after we woke up at 5:00 am, at that time the pool is available for us. Some of us jumped into the pool, the pool gave us a snowball effect so we didn’t spend much time on the pool. After the pool we had our breakfast and packed our bags to next destination which is “Mysore Zoo”.

Mysore Zoo, established in 1892, is a renowned wildlife sanctuary spanning 157 acres in Karnataka, India. Home to diverse species, from regal big cats to colorful birds, the zoo serves as a beacon of conservation and education. Through breeding programs and habitat preservation, it contributes significantly to wildlife protection. Mysore Zoo's well-maintained enclosures offer visitors a glimpse into the natural habitats of its residents, ensuring their welfare. With recreational activities and guided tours, it provides immersive experiences for families and wildlife enthusiasts alike. As a symbol of harmony between humans and nature.

After the visit of zoo, we went to “Mysore Palace”

Mysore Palace, an emblem of regal magnificence nestled in the heart of Mysore, Karnataka, captivates visitors with its resplendent opulence and rich heritage. This architectural gem, adorned in a fusion of Indo-Saracenic styles, stands as a testament to the grandeur of the Wadiyar dynasty. Its majestic façade, embellished with intricate motifs and vibrant colors, transports visitors to an era of royal splendor and cultural richness. Within its walls lie a treasure trove of historical treasures, from ornate halls adorned with exquisite artworks to intricately carved arches and domes that whisper tales of bygone royalty.

Mysore Palace, a timeless masterpiece, continues to enthrall and inspire, weaving together the tapestry of Mysore's illustrious past.

After the visit of palace, we reached back to the hotel and had our lunch. After the lunch there is a break time , then we went on to the “Chamundi Hill” we reached there at 4:00 pm.

There were a temple of GoddessDurga. The temple is known as Chamundeshwari Temple.

After the visit of Chamundeshwari Temple, there was a shopping time for all of us. After the shopping we packed our bags back to kerala. We had our dinner from on the way back. It is a long journey and we enjoyed it very much. After the long journey we reached our college at 3:00 am. Later that everybody leaves to their own places.

## **Conclusion**

In Conclusion, the industrial visit to **Maxvita PVT LTD** has been a profoundly enlightening experience. Witnessing firsthand the intricacies of their operations, from production processes to quality control measures, has provided invaluable insights into the practical application of theoretical concepts learned in the classroom.

The whole trip was awesome, I personally thanking our principal Dr. Jolly Andrews and our Head of Department Professor Aswin Sanjeev, and I specially thanking Professor Nikhil AN and Professor Reeja John for coming with us and for take care of us all the time on the whole trip.
